

John Flynn Scholars

Students having been awarded a John Flynn Scholarship may apply through ACRRM to complete their required John Flynn placements in the northern Territory via RUSC.

Should a placement be available for the scholar he or she is required to return to the Northern Territory to complete a placement in each year of their degree.

The first John Flynn placement in the Northern Territory is to be of 4 weeks duration (not negotiable) each subsequent placement is of 2 weeks duration.

John Flynn staff will arrange the scholars travel to and from the Northern Territory. NTGPE will arrange all internal Northern Territory travel and accommodation.

NTGPE endeavors to place John Flynn scholars at the same location for each placement throughout their degree, however sometimes this is not possible due to the ever-changing nature of Northern Territory Communities.

Scholars have equal opportunity as all other RUSC program participants in nominating their preferred placement type and location.
